

SECURITY MANAGEMENT SYSTEMS POLICY

As THY DO & CO İKRAM HİZMETLERİ A.Ş., our main goal is to provide safe catering and supply SERVICES in aircraft and private passenger halls where we provide in-flight catering services.

Although our management staff and all our employees take an active role in achieving high safety standards;

- We will identify threats and vulnerabilities in advance by conducting security risk analysis at every stage,
- We will minimize the security risk by taking measures to eliminate these identified vulnerabilities,
- We will provide training to all our employees regarding security, ensure that the training is understood, ensure their participation in the practices and comply with the international and national legislation requirements within the scope of security,
- We will continuously cooperate with law enforcement agencies in order to ensure uninterrupted security and to benefit from public resources to the maximum extent and to ensure effective security management,
- We will ensure continuity in the system by following the developments in the sector, changing customer expectations and technological innovations, and integrating the changes into the Security Management System,
- We undertake that all services and support we receive from outside that will affect safety will comply with our safety standards.
